

suBridge - SketchUp Model import and export in GstarCAD

1164 GstarCAD Malaysia May 22, 2016 [Apps & Extensions](#) 0 5189

suBridge is a “bridge” between the classic CAD system and the new world of SketchUp. With this simple CAD application you can import 3D objects in your DWG that you can download for FREE from the extensive library of the SketchUp 3D Warehouse (2.5 million 3D models). You can also export your 3D CAD entities to a SkecthUp model or create it from a simple plan view drawn in your CAD.

suBridge runs on:

- ZWCAD+ PRO 2015.
- AutoCAD from version 2010 to version 2016, both 32 and 64 bit.
- GstarCAD 2015 and 2016, both 32 and 64 bit.
(* AutoCAD is a trademark of Autodesk)
