GstarCAD 2017 brings you a new visual enhancement for two object snap options. On Drafting Settings window, under Object Snap tab, when you select both Distance from Endpoint and Divide Segments options, and you draw an object on the current drawing, you will see at status bar the respective snap options you selected before. So you can easily entry new values for both options.

Enhancements - Design, share and visualize your CAD drawing is better with GstarCAD 2017. Best-ever core performance, best-ever functionalities implementation and best-ever innovations are what this CAD platform offers.
