

How to add descriptions to blocks ?

1225 GstarCAD Malaysia June 30, 2021 [Tips & Tricks](#) 0 3041

GstarCAD has the ability to add descriptions to the block definitions in the drawing. Issue the BLOCK command, select the block from the list at top, then click in the lower 'Description' section and enter the description and finally click OK button to redefine the block with the new description.
