

Online Upgrade in other server

1268 GstarCAD Malaysia June 30, 2021 [Update and Upgrade](#) 0 3112

If you would like to upgrade the latest GstarCAD network license manager to another server that is not the same as the one you installed,

first, you need to return the authorization of the GstarCAD old version from the GstarCAD License Manager server which can access from the **Start** button - **All programs - GstarCAD Network License Manager**.

After the authorization of GstarCAD's old version returned, contact your distributor and provide the License series number and the upgrade version, after you get the reply.
