

# **ATTACH command**

1973 GstarCAD MY /KW August 2, 2021 [CAD Commands](#) 0 1160

The **ATTACH** command is used to insert external reference, raster image or underlay (DWF, DWFx, PDF or DGN file) to current drawing.

## **Command Access:**

**Ribbon** : Insert > Reference > Attach

**Command** : ATTACH

## **Function Description:**

In the "Select Reference File" dialog box, users could select one file to attach in current drawing.
