

# EATTEXT command

2110 GstarCAD MY /KW August 12, 2021 [CAD Commands](#) 0 1194

The **EATTEXT** command is used to extract drawing data and merge data from an external source to a data extraction table or external file.

## Command Access:

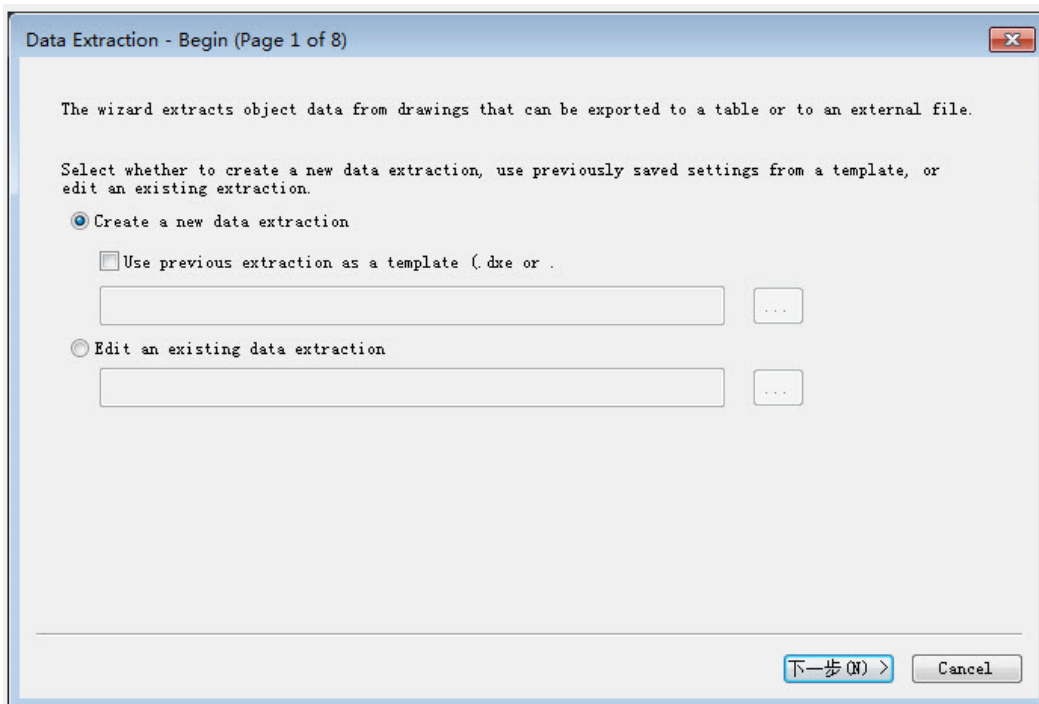

**Menu** : Tools > Data Extraction

**Command** : DATAEXTRACTION/EATTEXT

## Function Description:

Exports object properties, block attributes, and drawing information to a data extraction table or to an external file.

The Data Extraction wizard is displayed.
