

# Insert Blocks

2513 GstarCAD MY /KW November 9, 2021 [Workflow](#) 0 767

## Insert Blocks

Once a [BLOCK](#) is inserted into a drawing, a block reference is created and you can specify its location, [SCALE](#) and rotation ([ROTATE](#)).

## Insert a Drawing File as a Block

You can [INSERT](#) a entire drawing file as a block in current drawing. The name of inserted drawing will be used as block name.
