

## Create Radial Dimensions

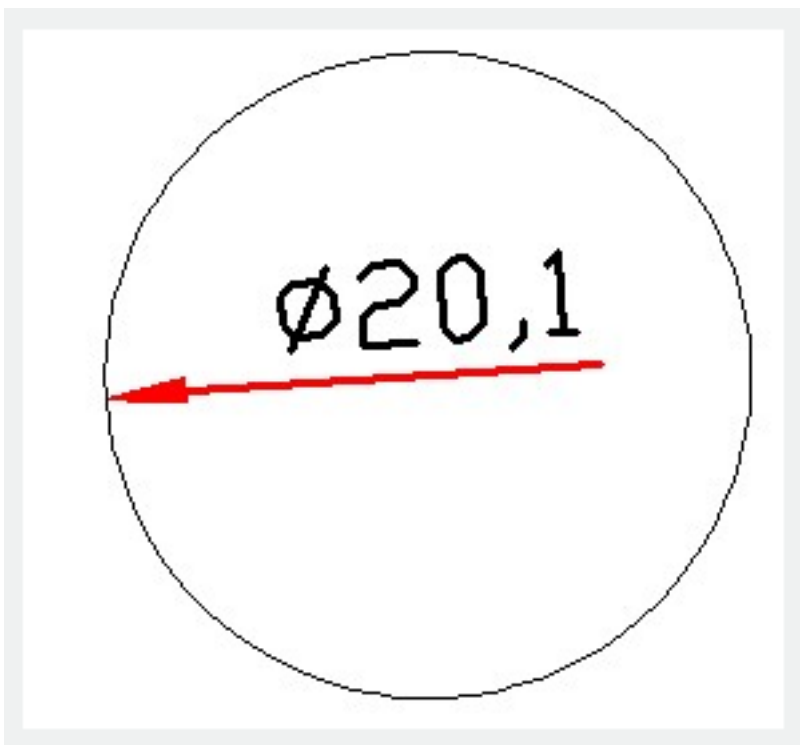

2569 GstarCAD MY /KW November 9, 2021 [Workflow](#) 0 955

The radius and diameters of arcs ([ARC](#)) and circles ([CIRCLE](#)) are annotated by Radial dimensions. Optionally centerlines or center marks can be included.

[DIMRADIUS](#) measures the radius of an arc or circle.

[DIMDIAMETER](#) measures the diameter of an arc or circle.
