

Check the Users Who Borrowed the Network License from Your Server (2020 - 2022)

2609 GstarCAD Malaysia September 30, 2019 [Activate / Deactivate](#) 0 3058

GstarCAD network license allows borrowing the node for a period from the server. The license manager list shows the lent node number and the available nodes left. The Lend Detail shows the lend information.

For example: If your network license has two nodes totally, one user borrowed a node from the server, so only one available node left that can be activated or borrowed.
